

## Use Dashboard Nodes For Creating UI(Web App)

Team ID	PNT2022TMID34114
Project Name	Smart Waste Management for Metropolitan Cities

### STEPS:

1. Open the Node-RED and pick and place the blocks according to python script
2. Make sure the necessary blocks are installed in Node-RED
3. After creating the flow click on deploy
4. Output is displayed in Node-RED debug window
5. Also, Web UI can also be created by the URL followed by /ui

### NODE-RED FLOW:

### WEB UI:
